### Special points of interest:

The WRSD provides parents with a convenient, easy and secure online prepay service to deposit money into your child's school meal account at any time. This service also provides parents with the ability to view your child's account balance and view your child's purchasing/eating history. Simply go to the district website at [www.wrsdsau59.org](http://www.wrsdsau59.org), click on the Food Services link, and then on the MyNutrikids.com link. From here you can create your account, add funds to your child's school meal account, and view their purchasing history. All you need is your child's name, student ID number and the school's zip code.

One feature that many parents are very pleased with is the ability to have email reminders sent to their personal email accounts regarding their preferred balance notification.
