February 1, 2012

Dear WRMS Parents and Guardians,

The NECAP scores for the 2011 test administration were released yesterday. I am very pleased to report that the scores for our school went up substantially in each category! The District as a whole increased 2% in reading, 2% in math, and 2% in writing. The middle school increased 10% in reading, 4% in math and 13% in writing – we exceeded our goals in all categories. We do not yet know our A.Y.P. status; we will be notified some time in the spring after the Department of Education makes the necessary calculations. I am thrilled with our progress and it is great to see all the hard work of our staff and students pay off! Below is a graph that includes seven years of results that was prepared by Suzan Gannett, our Director of Curriculum and Instruction. The middle school is in its third year of implementing our Restructuring Plan and the data indicates that we are being successful in improving student achievement.

Once we receive the parent copy of your child's test scores, we will be mailing them home along with your child's winter NWEA assessment scores. Our teachers will be working collaboratively and individually to analyze assessment scores in order to see where we need to provide additional support so that all students can move into the proficient and above range.

If you have any questions, please feel free to contact me.

Sincerely,

Dr. Pamela Miller  
Principal
